Reason for Allowance

1. Claims 1-19 and 25 are allowed over prior art.
2. The following is an examiner's statement of reasons for allowance: Applicant has canceled double patent claims 20-24 and 6-28, and amended claim 25 to depend on previously indicated allowed subject matter.

The prior art fail to teach or suggest a first switch and second switch associated with separate numbering scheme for designating a first group and second group of ports, and configuring a first port to generate a first MAC control frame based on a first rate control message, and switch a first MAC control frame to a second port, configure a second port to extract first rate control message from MAC control frame, and configure a second switch to generate a second rate control message based on a first rate control message, different from first rate control message to prevent back pressure related to a second port.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
